

BULLOCK

MODEL 3100 - NON-RETURN DAMPER

PRODUCT DESCRIPTION

The Bullock Model 3100 Non-Return Damper is specifically designed to dramatically reduce the back draft of air through air conditioning or ventilation systems.

Made from premium grade extruded aluminium, galvanised steel or graded stainless steel, this model damper can be installed inside rigid ductwork, conditioner plenums or in-line flanged ductwork configurations.

FEATURES

- Blades ganged outside the airstream
- On instruction damper can be fitted with barometric conversion kit for easy weight adjustment
- Blades pivot on 12mm shafts with stainless bushes
- Available in high temperature no nylon format
- Aluminium version is now fully extruded and can take 16 m/s without blade flutter
